SUMMARY

Creative and detail-driven technologist with practical experience in AI engineering, full-stack development, and product leadership. Proven track record in building web platforms, optimizing system performance, and contributing to impactful tech for social good. Passionate about scalable, user-centric systems that balance performance and practicality.

EDUCATION

Institut Teknologi Bandung (ITB) 2023 – 2027
Bachelor of Engineering in Information and System Technology, School of Electrical Engineering and Informatics

SMA Negeri 5 Bandung 2020 – 2023
Science Major

EXPERIENCE

Technology & Media Manager, 8EH Radio ITB Apr 2025 – Present
Bandung, West Java

- Migrated website from WordPress to **Next.js**, reducing homepage load time from 10+ seconds to under 3 seconds.
- Rebuilt CMS for real-time multi-user access, reducing latency to <2 seconds and improving workflow.
- Indexed on Google Search within first week; appeared in **344 search queries**, ranking on first page.

AI Engineer, Containder Indonesia Apr 2025 – Aug 2025
Remote, Bandung, West Java

- Developed a smart recycling prototype using **YOLOv5** and **OpenCV** for object classification and volume estimation of plastic bottles.
- Delivered real-time measurement with **21% margin of error** under diverse conditions; optimized for portability and edge deployment.
- Iterated across multiple CV approaches (e.g., ArUco markers) before finalizing on YOLO and OpenCV for efficiency.
- Prototype under review for **BRIN funding** to scale into production.

Full Stack Developer, Meddocs West Java Chapter Jun 2025 – Aug 2025
Bandung, West Java

- Architected and deployed a patient-centric online platform used by 100+ members, integrating a secure CMS, real-time content moderation, and a payment system.
- Implemented end-to-end features using Next.js, React, Tailwind CSS, MongoDB, Node.js, Prisma, with third-party integrations including Midtrans (payments), Cloudinary (media), and Twilio (notifications).

- Delivered a scalable, modular codebase that significantly improved operational efficiency for staff and administrators.

Founder & Full Stack Developer, DraftAnakITB

Sep 2024 – Present

Bandung, West Java

- Launched academic planning platform with **20K+ followers** and **1M+ weekly impressions** on Twitter/X.
- Migrated from Telegram bot to responsive web app, increasing retention and UX.
- Led UI/UX redesigns based on user feedback for continuous improvement.

Deputy Head of IT Division, Ganesha Student Innovation Summit ITB

Bandung, West Java

- Delivered hybrid AV setup for 100+ attendee summit, featuring Minister of Higher Education **Brian Yulianto** and **Imam Santoso**.
- Managed OBS-Zoom integration for seamless session broadcasting.

Frontend Developer, GEP LFM ITB

Dec 2024 – Present

Bandung, West Java

- Converted Figma designs into responsive, performant React components.
- Delivered full website within one week to support visitors.

SKILLS

- **Languages & Frameworks:** Python, JavaScript, Java, C, SQL, Next.js, React, React Native, Tailwind CSS
- **Tools & Platforms:** Git, Vercel, Firebase, Node.js, MongoDB, Prisma, OpenCV, YOLOv5, Midtrans, Twilio, Cloudinary, LangChain, Firecrawl, OpenRouter
- **Design & Video:** Figma, Adobe Premiere Pro, After Effects, Photoshop, DaVinci Resolve
- **Soft Skills:** Public Speaking, Project Management, Critical Thinking, Technical Documentation

CERTIFICATIONS

- **Next.js Fundamentals v4** — Frontend Masters, Completed Jul 2025
- **React Native v3** — Frontend Masters, Completed Jul 2025
- **Next.js App Router Fundamentals** — Vercel, Completed May 2025
- **React Foundations for Next.js** — Vercel, Completed May 2025
- **EF SET English Certificate (C2 Proficient, 71/100)** — EF SET, Completed Mar 2025

ACHIEVEMENTS

- Best Innovation Award (Education Category), International Leadership in Action Summit, 2024
